Attempting to turn internal medicine into System 1 Expertise leads to cognitive errors (like anchoring and confirmation bias) which lead to diagnostic and communication errors. The key to training expertise in internal medicine—and other wicked environments—is to slow down System 1 Expertise to reflect on how to appropriately reason about new and idiosyncratic situations.

Humanities are academic disciplines that study aspects of human society and culture. In the Renaissance, the term contrasted with divinity and referred to what is now called classics, the main area of secular study in universities at the time. Today, the humanities are more frequently defined as any fields of study outside of professional training, mathematics, and the natural and sometimes ...

Humanities - Wikipedia

The Statement of Teaching Philosophy (often shortened to "Teaching Philosophy") is a written reflection that uses specific examples to articulate and demonstrate your beliefs about teaching and learning. Your statement details the ways your day-to-day practices reflect and inform your approach to teaching.
