Corrugated & Paperboard Boxes - Global Market Outlook ...

Corrugated boxes are comprised of many layers of paperboard and are the most common type of cardboard box. They have two or three outer layers, with a corrugated 'medium' layer for added stability and durability, and are made using a corrugating machine, and an adhesive to stick the layers together. These boxes can come in single-wall, double-wall, triple-wall, and anti-static. Some examples of common corrugated boxes are mailing boxes, moving boxes, and pizza boxes.
