Coyote

The coyote (*Canis latrans*) is a species of canine native to North America. It is smaller than its close relative, the wolf, and slightly smaller than the closely related eastern wolf and red wolf. It fills much of the same ecological niche as the golden jackal does in Eurasia, though it is larger and more predatory, and it is sometimes called the American jackal by zoologists.

Coyote - Wikipedia

Coyote, (*Canis latrans*), also called prairie wolf or brush wolf, New World member of the dog family (Canidae) that is smaller and more lightly built than the wolf. The coyote, whose name is derived from the Aztec coyotl, is found from Alaska southward into Central America, but especially on the Great Plains.
