of the wide range of writing on identity in the growing area of mental science that emerged between 1830 and 1890. Our aim here is not to provide a comprehensive history of psychology as we now understand it as a discipline, but to bring together primary sources which give a sense of how some of the crucial questions about the shaping of social

Now Embodied Selves brings the most important essays of Victorian psychiatry, from George Combe to Havelock Ellis, together in one volume. Brilliantly chosen and organized, these essays will transform our understanding of Victorian narrative and its discontents. * Elaine Showalter, Princeton University * show more
