Health Information

File Type PDF Health Information Management

Management provides an introduction to the HIM function in hospitals including the structure and use of health information, health record data management, health record documentation, healthcare delivery systems, and regulatory and compliance issues.

Principles of Health Information Management

File Type PDF

Health Information Management

1. The process of extracting information from a document to create a brief summary of a patient's illness, treatment, and outcome
 2. The process of extracting elements of data from a source document or database and entering them into an automated system.

AHIMA's Pocket
Glossary of Health
Information

Management and
Technology offers this
definition: "A
scientifically based
statement of expected
behavior against which
structures, processes,
and outcomes can be
measured". The
second definition of
standard is stated as
"a model or example
