The Cummins C Series engine is a straight-six diesel engine with a displacement of 8.3 litres. Cummins began producing the engines in 1998. The engine was based on its predecessor, the Cummins C 8.3-litre engine originally introduced in 1985 as the 6C8.3. The first electronic version, known as the C8.3E and designed for the urban bus market exclusively, went into production in late 1996. By late 2003, Cummins announced that they will revise the engine to sport a High-Pressure ...
