Inspirational Alzheimer's Quotes

Yet the disease typically starts with things of little or no significance. Not being able to come up with a common word. Mixing up someone's name. Forgetting to turn off the stove. Things we all do from time to time. But for the person just entering the fringes of Alzheimer's, these things may begin to happen more and more often.

Alzheimer's and the Devil Called Denial | HuffPost

Instead of Stan saying, 'Please give me the cup,' he forgets the word cup and (while pointing at it) might say, 'Please give me that one.' He might use vague phrases such as, 'Something has happened', or, 'Something is not right.' These are just two examples of the wonderful way people with dementia compensate for missing memories.

Symptoms & Stages of Dementia - Dementia Care International

2. 'I've just told you that' Having to answer the same question several times can be frustrating, but repetition will happen. There is little benefit to passing on your frustration to somebody with dementia, and saying 'I've just told you that' only reminds the person of their condition.

What not to say to somebody with dementia | Alzheimer's ...

But because Alzheimer's and dementia are progressive diseases without cures, everyone eventually gets worse. Bottom line Making the most of the time you have together is the most helpful approach. Focus on positive emotions rather than exact words and don't worry about whether the facts are correct or not.
