Hello everyone, welcome to At-Man Unlimited. Let's take apart the Renishaw MP10 probe and go over the pieces parts and what everything does. We can start at the probe tip, look at configuration ...

#### Anatomy of the Renishaw MP10 Probe

When you use the WIPS calibration pages to calibrate the probe, this automatically sets macro variable 592 to 2. When you use VQC calibration pages to calibrate the probe, you can select 2 or -2 for macro variable 592. If the probe is installed in a different direction, you possibly must change macro variable 592.
